Education

Aditya Engineering College

September 2022- May 2026

Bachelor of Technology in Information Technology(GPA: 7.79 / 10.00)

Surampalem, Andhra Pradesh

- **Relevant Coursework:** Enhanced C++ algorithms and data structures through coding exercises, group discussions, and competitive programming, while expanding proficiency in C++, Python, and Java through diverse projects and hands-on practice.

Experience

Ladmentrix Innovations Pvt. Ltd.

June 2025 – Present

Full Stack Development Intern

Remote

- Created 4 reusable React.js components and managed their state, reducing UI bugs by 25%.
- Added 5 Node.js/Express API routes and MongoDB queries to handle 1,000+ records daily.
- Fixed 50+ critical bugs alongside teammates, cutting average page load time by 20%.
- Used Git for version control—merged 10 pull requests—and joined weekly code reviews.

Projects

Campus Craving — College Food Ordering Website | *React.js, Node.js, Express, MongoDB, Socket.io*

- Led development of a food ordering platform for college canteens where students can browse menus, place orders, and track them live. Designed 3 separate dashboards for students, vendors, and admins using React.js and Tailwind CSS.
- Developed 15+ REST APIs using Node.js, Express, and MongoDB to manage orders, users, and items. Added real-time order status updates with Socket.io and deployed the app using Render and Vercel.

Real Time Chat Application | *React.js, MongoDB, Express.js, Node.js, Socket.io*

- Built a one-on-one chat app with React.js and Socket.io, handling about 200 private messages per day. Set up login for 50+ users to keep conversations secure.
- Improved the UI/UX to enhance usability and reduce latency, testing with over 50 users to ensure reliability. Incorporated feedback to refine the interface and performance continuously.

Hospital Management System | *React.js, MongoDB, Express.js, Node.js*

- Developed a comprehensive hospital management system to enhance patient and staff scheduling. Designed over 20 RESTful APIs, improving data retrieval speed by 40% and ensuring consistent system uptime.
- Implemented user authentication with role-based access control, reducing unauthorized access by 95%. Secured sensitive data through encryption and multi-factor authentication.

Technical Skills

Languages: C Programming ,C++,Python,Javascript,SQL

Web Technologies: Html,Css,Git,GitHub

Technologies: React.js, Express.js, Bootstrap, Node.js, MongoDB, Tailwind CSS

Concepts: Operating system, API, Database Normalization, Agile Methodology, Computer Networks, DBMS

Achievements

- Completed over 700+ coding challenges on GeeksforGeeks and LeetCode.
- Earned 11 LeetCode badges for maintaining a daily challenge streak.

Certifications

- Python Essentials (Cisco Networking Academy) [↗](#)
- Database Management Systems Part 1 (Infosys Springboard) [↗](#)
